## OBJECTIVE

---

Driven Software Engineer Focused on Creating High-Quality Web Applications

## EDUCATION

---

**Master of Computer Applications**, Pondicherry University

Relevant Coursework: Web Development, Machine Learning, Networking, Management Principles.

**Bachelor of Computer Applications**, University of Lucknow

Relevant Coursework: Database Management Systems, Software Engineering Principles, Data Mining.

## SKILLS

---

<b>Technical Skills</b>	TypeScript, JavaScript, Next.js, React.js, Node.js, Express.js, Redux, Zustand, Mongoose, Prisma, MongoDB, MySQL, Firebase, Tailwind CSS, Styled-Components, CSS, HTML
<b>Soft Skills</b>	Active Listener, Collaborative, Supportive, Team Player, Creative Thinker, Communication

## EXPERIENCE

---

**Associate Software Engineer**

Laitkor Labs

May 2024 - Present

*Lucknow, UP*

- Developed and maintained scalable online apps using React.js, Node.js, and MongoDB, which improved application speed by 20%.
- Collaborated with cross-functional teams to design and implement RESTful APIs, which increased system integration efficiency by 25%.
- Optimized front-end and back-end codebases with best practices, resulting in a 30% reduction in load time and greater customer satisfaction.
- Using different styling frameworks to designed and implemented reusable UI components that ensured consistent design across applications.
- Conducted thorough code reviews, resulting in a 15% increase in code dependability and a reduction in problems.

**Full Stack Developer Intern**

Hanabira Desgins

Mar 2024 - Apr 2024

*Lucknow, UP*

- Collaborated with a designer to create and install the company's main website using Next.js, which increased user engagement by 30% through a responsive and appealing experience.
- Created a custom client website suited to specific business needs, boosting their digital visibility and laying the groundwork for future consumer engagement.
- Implemented scalable features and optimized web applications, resulting in a 20% reduction in load times and the establishment of best practices for future development.

## PROJECTS

---

**Social Media App.** I created Social Scoop, a web application for curating trending social media material with React.js, Node.js, and MongoDB. Created a comprehensive RESTful API for rapid data retrieval, and optimized the app for a smooth, responsive user experience. ([Try it here](#))

**University NSS Portal.** Pondicherry University's NSS Portal was built with React.js and Node.js to streamline volunteer registration and event management. Added a user-friendly dashboard for administrators and users, increasing operational efficiency. Ensured responsive design and optimal performance for improved accessibility. ([Explore](#))

**Event Platform.** Developed Evently, an event management software that enhances user experience and registration efficiency. Streamlined event booking, resulting in increased engagement and user satisfaction. ([Explore](#))
